

Entrotec

Introducing a new range of door entry products

Chic Door Entry Range

Building upon the resilient, high quality Apex door panel, Entrotec are delighted to launch our Chic range. Designed to meet the needs of modern day housing, this aesthetically pleasing product combines quality with style. Our contemporary door panel lends itself perfectly for private or general housing residence and particularly mixed tenure developments. All Entrotec door panels are Secured by Design Tested and approved.

Key features:

- Full Apex integration
- High quality 316 marine grade stainless steel.
- Fine brush satin appearance
- Aesthetic lines
- Overlap panel
- Range of matching accessories
- Modern OLED display, for block information and instructions
- Discrete reader colours
- Integrated, discrete camera
- Digital Keypad with illuminated buttons

Vogue Apartment Station

A modern, stylish apartment station developed to demonstrate that quality and style go hand in hand. Complimenting the 7" high resolution colour LCD screen is a striking white finish. Vogue has been designed for low and high-rise private or general housing developments and multiple dwelling buildings.

Key features:

- Sharp and crisp display - 7" high resolution colour LCD display
- Compatible with CW1308 or CAT5
- Contemporary apartment station suitable for mixed tenure and private developments
- 3mm fascia provides a stylish, impact resistant unit with a wipe clean glass surface
- Advanced viewing prior call 'Accept'
- Striking 'ice white' finish
- Touch sensitive illuminated function buttons aids device navigation and allows resident to control functions to 'Call Accept', 'Door Release', 'Privacy' and 'Call-back'. In addition the resident can adjust speech and call volume, even during a call
- Compatible with all Entrotec Elite and Apex systems.

Entrotec are trusted pioneers in developing and manufacturing door entry systems, proximity access control and concierge solutions. These products are used for social, private and mixed tenure housing. Engineering for over 30 years here in the UK, Entrotec prides itself on exceeding customer expectation and building easy to install and use systems. Entrotec is renowned within the UK for supplying high quality, flexible solutions that protect people, their properties and the communities.
